### REPUBLICAN WARD MEETINGS IN SEDALIA LAST NIGHT.

**Delegates and Nominees—The Colored Brethren Left Out in the Cold—A Case of Turkey and Buzzard.**

Last night was the time selected for holding the ward meetings for the purpose of electing delegates to the republican city convention, and also to nominate aldermen to be voted upon to-night.

#### First Ward.

The meeting in the first ward was held at the council chamber and was called to order by R. F. Cain, who nominated Dr. A. F. Dresel for temporary chairman. Charles Conrad was elected secretary.

After the reading of the call by the chairman, it was moved, seconded and carried that the temporary officers be made permanent.

It was then moved that a committee of five be appointed to select fifteen candidates for nomination for delegates. A stalwart member of the "grand old party," Albert Bowman by name, sprang to his feet at this juncture and made a red-hot speech against any such snap judgment on the members of the meeting. He objected to any slate or cut-and-dried business, and it was with considerable difficulty that the chairman was able to suppress the fiery gentleman.

Thereupon Dr. Dunlap moved that the committee name thirty men instead of half that number out of which to select the fifteen delegates.

This plan failed to please the colored cohorts, who were massed in the northwest corner of the room. Their spokesman, Dr. Walden, took the floor and denounced this scheme as unfair to his people. They had never been fairly treated in meetings of this kind, said he, and now they proposed to insist upon their rights and demand the representation and recognition their past services entitled them to. He further said that in the list of thirty names those of only two colored men appeared. Four would be the least number which would satisfy them.

While the dusky doctor was speaking, his colored friends gathered closely about him and their looks and demeanor plainly indicated that they meant business and proposed to have their share of the honors.

Walden gained his point, for his white republican brethren instantly detected the fact that they must surrender or shew would be to pay before the night was an hour older. Two or three additional negroes were therefore included in the list appointed by the committee, which consisted of Dr. Dunlap, J. C. Farmerlee, C. Botz, C. Bledsoe and R. F. Cain.

Butler Dixon moved that while the committee were out, that the various candidates for aldermanic honors be invited to address the audience.

T. B. Young, an ex-councilman, was the first to respond. He was followed by Dr. Walden, who said that he had entered the race at the suggestion of his friends. He was born a slave, of slave parents, in a slave state, and hardly expected that the nomination would be conferred upon him. Will Ilgenfritz was unable to make his way clear through the crowd, and while astraddle the railing, announced his candidacy and hope of reward. Frank McAllister was loudly called for, and pushed nobly to the front. He said he was there, not to talk, but to get nominated. His rousing speech was received with great applause, and it looked and sounded as though he was the favorite, but, alas! The little paper ballots proclaimed otherwise. There seemed to be an eternal fitness in the fact that this breezy and popular son of Erin should be followed by the *Gazette's* colored pressman, Tom Ireland, also an aspirant for city honors.

H. W. Meuschke, Major Beck, Dr. Dunlap and Fred Bush, colored, were appointed judges, and A. R. Easton, F. Heurman, A. Winzenburg and William Ruby, clerks.

The fifteen persons receiving the highest number of ballots, and elected, were: T. B. Young, W. D. Ilgenfritz, Chas. Messerly, M. Harter, H. Meuschke, Dr. A. F. Dresel, Frank McAllister, A. W. Winzenburg, Wm. Ruby, Chas. Wintzleman, C. Bledsoe, H. O. Jones, S. D. Trumbo, H. Fleming, Wm. Beck.

The following were placed in nomination for councilman: A. W. McKenzie, G. W. Burr, E. W. Lamy and William Hain. The first ballot resulted as follows: McKenzie, 68 votes; Burr, 10; Lamy, 25; Hain, 14.

Mr. McKenzie's nomination was

nomination for aldermen: T. B. Young, W. D. Ilgenfritz, Frank McAllister, G. Tom Ireland and Dr. C. S. Walden.

The vote stood, first ballot: Ilgenfritz, 83; Ireland, 39; Young, 27; Walden, 22; McAllister, 21.

The lowest man, McAllister, was then dropped and the second ballot stood: Ilgenfritz, 97; Ireland, 30; Walden, 15; Young, 14.

On motion, Mr. Ilgenfritz' nomination was made unanimous.

Dr. A. F. Dresel was elected ward committeeman.

As is always the case on such occasions, the poor negro came out at the attenuated end of the horn. He had plenty of hard work to do in the convention, but when it came to bestowing substantial favors, it was turkey for the white man and buzzard for the "nigger."

#### Second Ward.

The second ward republicans were not very numerous at the meeting last night. J. S. Bosserman was made chairman and W. S. Hauptly secretary.

Lyman B. Hall was the only man in the field for councilman and his nomination was made unanimous.

The following delegates were elected to attend the convention at the court house to-night: F. Meyer, W. S. Hauptly, L. B. Hall, W. H. Mason, W. A. Staley, Wm. Habrecht, J. W. Walker, J. A. Leach and Geo. Dickman. The poor old *Gazette* was "not in it" when it came to electing delegates and Editor Streit was incontinently snowed under.

W. S. Hauptly was made ward committeeman. After which the meeting adjourned.

#### Third Ward.

The meeting at W. H. Paris' store room on Fifth street was called to order by Mathew Myers, ward committeeman who read the call of the republican central committee. Peter Rockwell was made chairman and J. L. Thornton, secretary.

The committee on order of business, Messrs. Chas. Hoffman, Geo. Neely and J. A. Davis reported as follows:

First, the selection of twelve delegates to the city convention.

Second, election of a ward committeeman for the ensuing year.

Third, nominations for councilman in third ward.

The meeting then had a little republican "harmy" over how the delegates should be selected. After about a half hour's wrangle it was decided to ballot and the twelve receiving the highest number of votes were to be the delegates. T. B. Anderson, J. E. McDougall and M. H. Avery were appointed judges.

The following twelve were chosen as delegates: J. L. Wigdon, Arch. Campbell, J. K. Elkins, Al. Hunnicke, Geo. C. Greenup, W. B. Brown, J. R. Glen, Richard Ritter, J. H. Mertz, J. C. Thompson, Mathew Myers and Chas. Hoffman.

In the selection of a ward committeeman Chas. Hoffman was unanimously elected.

Nominations now were in order for councilman. Capt. T. B. Anderson, in a short speech, held that the west end of the Third ward was very much abused and proceeded to nominate C. H. Rockwell.

J. T. McDougall named T. P. Berry for councilman after an eloquent talk. Nominations were then closed and Mr. Rockwell elected on the first ballot by a small majority. His nomination was then made unanimous.

Upon being called for Mr. Rockwell made a short talk after which the meeting adjourned.

#### Fourth Ward.

The criminal court room at the court house was well filled with republicans of the fourth ward. The meeting was called to order by ward committeeman, J. D. Brown.

Commodore G. B. Simmonds was elected chairman and W. Mint Johns, secretary.

Henry Lamm, Milo Blair and Frank Landmann were appointed as a committee on order of business. The committee decided upon the following order:

Selection of councilman by ballot, the choice of fifteen delegates to the city convention to be decided by a committee of ten appointed by the chair and the ward committeeman to be chosen by ballot.

The following were placed in nomination for councilman: A. W. McKenzie, G. W. Burr, E. W. Lamy and William Hain. The first ballot resulted as follows: McKenzie, 68 votes; Burr, 10; Lamy, 25; Hain, 14.

Mr. McKenzie's nomination was

made unanimous on motion of Henry Lamm. The newly fledged politician then came forward and returned thanks for the honor that had come upon him.

The delegates to the city convention were named as follows: Cyrus Newkirk, S. P. Johns, Sr., W. L. Porter, Louis Bain, H. G. Clark, Walter Jackson, John Gresham, John D. Brown, Jacob Brandt, Louis Hoffman, James O'Brien, Adam Fischer, R. H. Moses, William Thompson and George Evans.

On motion of Henry Lamm, W. Mint Johns was unanimously made ward committeeman for the ensuing year.

P. D. Hastain was called upon for a speech and delivered a characteristic political talk, redolent with the odor of the republican ranks.

#### To Be Sold.

At a meeting of the board of trustees of Lewis college held in Glasgow recently it was decided to sell all the property in that city, held by the M. E. conference as soon as possible. The *Glasgow Missourian* says: The property includes in addition to the college building, north of town, the old college and residence on the corner of Fourth and Market streets. This action of the trustees permanently closes the doors of Lewis college, one of the oldest educational institutions in this part of the state.

#### Closed its Doors.

The Merchant's Hotel, after running about five years under the management of Fred Buske, has closed its doors. Mr. Buske will not engage in business for a while.

The house is part of the Smith and Cotton estate and will be thoroughly re-modeled for some prospective tenant.

#### McCarthy for shoes.

#### CHARGED WITH INCEST.

**A Degraded Father Charged With a Terrible and Unnatural Crime.**

A representative of this paper was talking to a gentleman to-day concerning the terrible crime of the man Reinhardt, who was arrested at Tipton night before last charged with the crime of incest. Reinhardt's daughter has become the mother of two children by her father. The case is a terrible one and demands the extreme penalty of the law.

While the officers were taking him to Boonville Thursday night, Reinhardt made three desperate attempts to escape. Twice he was stopped by a round of pistol shots fired into the air. The third time it was found necessary to throw him to the ground and choke him into insensibility.

The father and daughter are both now in the Boonville jail.

#### Getting Along Nicely.

Monroe Wright, who was knocked down by a couple of highwaymen and robbed, and who was run over by a car in the M. K. & T. yards several weeks ago, is getting along nicely. No clue has been obtained to the whereabouts of the robbers and there appears to be little hope of ever bringing the guilty wretches to justice.

#### They Were Armed.

George Jackson and John Creach were arrested at a late hour yesterday afternoon and taken before justice Blair on charge of carrying concealed weapons. They were fined \$50 and costs.

#### Marching Through Georgia.

Blind Ike with his hand organ and rip saw voice returned to the city yesterday afternoon and will make the streets reverberate with his presence.

W. J. Letts has the reputation of selling groceries cheaper than any other man in East Sedalia. Try him once and see if such is not the case.

#### A MIDNIGHT PROWLER.

**Two Men Get a Warm Reception While Trying to Enter a House.**

Two unknown men forgot to leave their cards last night while making a call upon W. C. Williams who lives on Tenth street.

Mr. Williams is a postal clerk running in the railway mail service between Sedalia and Denison. Shortly after 11 o'clock he and his wife had retired for the night. In a short time, there was a noise at the door as if some one was trying to unlock it with a key.

Mr. Williams demanded to know who it was and what was their business. He received no answer, but the noise continued. He then warned the disturber to make himself scarce or he would shoot.

The artist of the skeleton key made no response. Mr. Williams drew his revolver and fired directly through the door. There was a loud racket for a moment and then the footsteps of two men could be heard running away.

It is not known whether or not the man was struck, but at any rate he will not be so bold in the future when he endeavors to break into that particular house.

#### GRAND REUNION.

**The Ancient Order of United Workmen will Celebrate.**

The many members of the Ancient Order of United Workmen in Sedalia will be glad to know that the members of the order in St. Louis are making preparations on a large scale for the entertainment of a multitude of their brethren from abroad on May 12 and 13. The occasion will be a grand reunion of the order, and 70,000 visitors are expected. Lodges and uniformed legions of select knights will be present from every corner of the country to celebrate on May 12

the seventeenth anniversary of the introduction of the order into Missouri.

The local committees have secured every inducement to draw the crowds. A one-fare rate, good for five days, has been obtained from the railroads for every point within a radius of several hundred miles of St. Louis, and the same rate can be made for a member of the order in any part of the United States, provided he signifies to the local officials of the order his intention of coming.

The visitors are expected to arrive on Monday and Tuesday, May 10 and 11. On Wednesday, May 12, all the lodges and uniformed legions will participate in a grand parade, followed by a picnic at the Fair grounds. To the best drilled uniformed legion a prize of \$1,000 will be given, \$500 to second and \$250 to third. The best appearing lodge will receive \$100; second, \$50; third, \$25. In addition a rich prize will be given to the lodge which has the greatest numerical strength.

## "GOOD EVENING,"

## Do You Read THE DEMOCRAT?

"I would earnestly advise them for their good to order this paper to be punctually served up and to be looked upon as a part of the tea equipage."—ADDISON.

THE colored man and brother was "not in it" in the first ward.

NO MAN deserves more credit than Mayor Stevens for the magnificent fight Sedalia has made for the university.

FRANK McALISTER was knocked out in the first round at the first ward meeting. The machine was on deck.

THE republican ward meetings last night were tame and spiritless, showing plainly that the party expects defeat at the polls.

THE DEMOCRAT has already attained a larger circulation than its most ardent friends predicted it would achieve in twelve months.

THE business interests of Sedalia demand that the policy of the city promptly meeting its obligations be endorsed at the polls. And it will be.

THE DEMOCRAT is pleased to congratulate the democrats of Sedalia upon the harmony and good feeling existing among the democrats of the city. Such a condition presages victory in the coming election.

IN spite of all Editor Streit's agony of mind over the depraved condition of Sedalia, an intelligent public fully appreciates the fact that the city is as moral and orderly as it ever was in its history.

THE poor old Gazette got stepped on at both ends last night. Tom Ireland was defeated for alderman in the first ward and Editor Streit was snowed under in the race for delegate in the second.

THE republican campaign was opened with a fight against the wise and business-like policy of paying the city's debts. Sedalia cannot afford to be handicapped with a mayor and council elected on that kind of a platform.

NO MAN ever labored harder or more faithfully for the interests of a community than have the present mayor and councilmen. Their work is endorsed by the people of the city, and that endorsement will be registered at the polls.

THE laws of the state of Missouri say that selling liquor on Sunday and keeping gambling houses are crimes, and the same law makes it

the duty of the justices of the peace, constables and sheriffs to see that such offenses are punished. If Editor Streit is honest in the belief that such crimes are of frequent occurrence why don't he call upon Sheriff Smith and the republican justices of the peace to enforce the law? Why continually charge that five democratic peace officers are responsible for violations of law and never so much as breathe a word of criticism of the fourteen republican officers who are equally to blame?

## A NATURAL RESULT.

The infamous campaign which the *Gazette* has inaugurated against Mayor Stevens, culminating in its notorious "Dildine Dream" article, has had the very natural result of rallying to the support of the mayor hundreds of democrats and republicans who may have differed with him on some matters in the past.

This result is both startling and appalling to the great moral reformer, Editor Streit, and he grows frantic whenever he contemplates the work of his organ, and realizes the fact that his literary blunderbuss has done more execution at the breech than it has at the muzzle.

The great editor's mental distress is heart-rending as he realizes that he himself has done so much to not only make Capt. Stevens' re-election probable but in every way desirable.

He thinks the ranks of his own party are filled with spies and traitors, and that even the colored voter has been made lukewarm and uncertain in his allegiance to the republican party, and his heart is filled with sorrow every time he contemplates the spectacle of the democracy with closed ranks and unbroken force, solid in support of Sedalia's good name and the man who has done so much to push the business interests of the Queen City.

The *Gazette's* campaign has disgusted hundreds of the better element of its own party, while it has solidified the democracy.

For this unintentional good work Editor Streit has the thanks of the democracy even if he never receives the forgiveness of his own party,

## NO NEED OF ALARM.

There is no need for any voter to feel the least alarm as to the fate of the tariff question in the national democratic convention.

Nothing in politics is more certain than that the subject of national taxation will be an important issue in the presidential campaign, and it is equally certain that the position of the democratic party will be that of unalterable opposition to any exercise of the taxing power except for the purpose of raising revenue to pay the expenses of maintaining the government.

The subject has been too thoroughly discussed for there to be the slightest doubt as to the position of the democracy of the country on the question.

The real strength of the party is in those sections that feel most sensibly the effects of the tax for class aggrandizement, and its evil effects have become so patent that the party leaders could not, if they desired, stem the current against the strong public sentiment that demands that the policy of taking one man's earnings to enrich another shall cease.

But to make still more certain the fact that the party will speak plainly on this question, it cannot be denied that the democrats who urge financial reform in the shape of free coinage of silver are among the most outspoken and persistent advocates of tariff reform.

Vest, the father of the free coinage bill in the last congress, has been bold and eloquent in his advocacy of tariff reform.

Bland, who stands pre-eminent as an advocate of honest money and who in season and out of season has fought the gold bugs in every session of congress since the infamous scheme to depreciate silver was smuggled through congress, has never lost an opportunity to work, speak and vote against the robber tariff.

Heard, Dockery and other members of the Missouri delegation, and indeed the free coinage men almost without exception, have been foremost in the fight against the pernicious system by which a few have been enriched at the expense of the

toiling millions of producers.

It would be impossible to hold a free coinage convention in this country which would not in the same breath in which it declared for financial reform register a most emphatic denunciation of the whole protective tariff principle.

There need be no alarm on that score.

Only let the men who are posing as tariff reformers be democratic enough to submit to the decision of the majority of their party on the silver question, and we will have a double-barrelled campaign that will result in a two-fold victory—a victory over the tariff barons who have grown rich by the power conferred upon them of confiscating the labor of the masses, and a victory over the money kings of Wall Street who have grown equally rich by the equally rascally process of depreciating the value of products by enlarging the unit of measure.

Then, with the establishment of the right of every American citizen to enjoy the proceeds of his own labor and the guarantee to him of a fair standard by which to measure those products, the masses of the people will again show evidences of that prosperity which has been by law denied them for the last twenty-five years.

If the democratic party, represented by five peace officers, should be defeated at the polls because the *Gazette* says there are gambling dens and bawdy houses in Sedalia, what should be the fate of the republican party which has fourteen of its members who are equally responsible for allowing these dens of vice to exist? Editor Streit strains terribly at five little gnats, but he easily swallows fourteen camels and cries for more.

THE DEMOCRAT regrets that Mr. Charles S. Dexter's business engagements prevent him from again becoming a candidate for city treasurer. Popular, efficient, accommodating, he is everybody's friend. Two years ago he defeated the most popular republican in Sedalia, and had he accepted a re-nomination he would have been elected by an overwhelming majority over any man who could have been put up against him.

THE laboring men of Sedalia know that the present administration is progressive and will push public improvements as rapidly as possible, and they know, too, that no class of citizens would suffer more by reason of a change of policy than those who live by their labor. Capital can lie still and wait for an old foggy administration to die out. Labor cannot—it must be employed in order to live.

THE republican orators who talk about "redeeming Missouri" are sadly deficient in their knowledge of the history of their own state and are twenty years behind the times. Missouri has been redeemed. The happy event occurred in 1872, and from that day to this the state has been growing in wealth and population as fast as pernicious federal legislation would permit.

ANOTHER of the city bonds has been called in to be paid out of the sinking fund. Thus the work of reducing the city's debts goes bravely on under an administration that has been maligned and misrepresented because of an honest effort to preserve the credit of the city and save money for the tax-payers.

PROVIDENCE and the statutes both decree that a steamer shall leave Sedalia every year destined for the lonesome shores of Salt river. Arrangements were made last night by the republicans of Sedalia to monopolize all the staterooms. Editor Streit was chosen pilot and no democrat will be allowed on board.

"I HAD nothing to do with bringing out that d—d nigger for alderman in the first ward," said Editor Streit in referring to Tom Ireland's defeat. "And I had nothing to do with bringing out that d—d editor in the second ward," said Tom in reference to Streit's defeat for delegate.

A PROMINENT republican remarked in the presence of the writer the other day: "I tell you V. P. Hart has made the best collector Sedalia ever had." To win such commendation from strong political op-

ponents is an achievement of which any man may be proud, and especially when it is echoed all over town.

THE Palmer boom is growing nicely in Illinois and it is generally predicted that the democratic state convention will instruct its delegates to vote for the grand old man. Then, if he is nominated, look out for a big democratic tidal wave in November.

If Sedalia does not get the university she can profitably use that two hundred thousand dollars in encouraging manufactories, developing coal mines and opening valuable stone quarries which are at her very gates.

THE negro is useful to the republican managers only as a voter.

The Missouri Garten Institute, Sedalia, Mo., will give a good and secure bond of \$10,000 that they will in no way leave any bad results after a course of treatment of the tobacco or liquor habit. This ought to be a sufficient recommendation to cause the public to place confidence in such a company.

## Take Care of the Eyes.

The delicate organism of sight is easily impaired. Pain or inconvenience in reading or working should be noted and the cause ascertained. It is easier to check an evil of this nature than to cure it after it has become confirmed. If your eyes trouble you call on Dr. M. L. Smith, who makes optics a specialty.

## Major Smiley's Sixteenth Birthday.

Major W. A. Smiley, register of lands at Booneville and who has many friends in Sedalia, although his hair is mingled with gray and is in reality 64 years old, has never enjoyed the celebration of but sixteen birthdays. However strange this may seem it is true, the reason being that the major was born on the 29th of February and therefore has but one birthday in four years.

## But No Excitement.

From the Milwaukee Sentinel.  
Nearly every family owning its own cottage or little plot of ground, and growing all that it needs of oil, olives, wine and corn; moderate tastes and moderate leisure; wages not high but sufficient for a pleasant and abstemious life; roomy and cleanly dwellings—such is the happy lot of those who live in the Peloponnesus, according to the recent report of Mr. Wood, the British consul.

## A Slipper Fad.

From the New York Press.  
A New York girl who dotes on pretty slippers has adopted the sweetest little fad in connection with them. She has found that the toe of her satin or silk slipper wears out long before it should and that there is a remedy for this in the adjustable slipper toe. They are easily fastened on and made of silver, gold and bronze. The society girl has the adjustable toe made of gold, upon which is her monogram sparkling with her favorite stone. A dark red satin slipper will have a golden toe, upon which is a monogram of garnets.

Samuel Murphy being first duly sworn deposes and says that he has been a resident of Lincoln for the last twelve years, that he has been drinking for the last fifteen years, being under the influence of liquor most of the time; would take half a

pint of whisky before breakfast, often going without meals; have taken a three weeks' course of treatment at the Garten Medical institute at Lincoln, and have been entirely cured of any longing to drink. Have not taken any drink since the third day of the treatment, more than a month ago; cannot bear the smell of liquor, causing me to feel sick and like vomiting; have been a free drinker, and before treatment had lost all feeling in my limbs, so that the puncture of a pin or the injecting of the instrument was not felt when treatment commenced, but have now fully recovered, and have a good appetite and sleep well, and would recommend the treatment to all under the influence of the liquor habit.

SAMUEL MURPHY.

## WILL DISSOLVE.

Standard Oil Trust, But Not the Company.

## THE OHIO ANTI-TRUST DECISION.

This Caused the Announcement to Be Made—Stock Held By the Trustees to Be Returned to the Various Companies.

NEW YORK, March 12.—S. T. Dodd, solicitor of the Standard oil trust, stated yesterday afternoon that it was the intention of the concern to dissolve at the coming meeting and not to organize in any way. The stock held by the trustees will be returned to the various companies and the affairs of the trust wound up.

The announcement that the managers of the Standard oil trust have invited the certificate holders to vote on a motion to dissolve the trust has aroused wide interest and a keen desire to know the form under which it is proposed to conduct the enormous business of the concern.

In accordance with a provision in the trust deed a special meeting of the holders of the trust certificates has been called for Monday, the 21st, to vote on the proposition. At that time, too, these holders may decide the mode in which the affairs of the trust shall be wound up and whether the trust property shall be distributed or whether part, and if so what part shall be divided and what part sold and whether such sales shall be public or private.

S. T. Dodd, the solicitor for the trust said: "We think the trust has been a benefit to everybody. Besides largely reducing the price of oil to the consumer it has enabled every person in our employ who has saved a dollar or got a dollar to invest to share in the profits of the trust, and in that way it has been a profit sharing industry."

"No, we have no intention of reorganizing the trust; our purpose is to dissolve, not to reorganize. This decision has been brought about in part by the decision against the trust in Ohio, but more largely by the opposition and legislation against trusts of this sort in different states and which has become burdensome. The decision in Ohio was the first one given against our trust deed in any state. Of course it only affected the trust in that state. THE COMPANY INTACT."

PITTSBURGH, Pa., March 12.—Mr. William McKelvey, vice-president of the Standard Oil Co. in this city, denied that the Standard was going out of business. In an interview with a reporter for an evening paper Mr. McKelvey said: "There is a great misapprehension prevailing in regard to the recent edict of the supreme court of Ohio. We are not at all surprised at that decision, and it is simply an absurdity to even think of the Standard Oil Co. going out of business on the strength of that decision. Our company was controlled by that trust, and while public clamor may credit at first of accomplishing this end, the actual fact is, it is desired by us. I agree with Mr. Dodd, the Standard oil solicitor, that the principal effort of the company in the trust and the trust as a whole has been to cheapen oil production and the marketing of that commodity. There were no considerations for this move outside of business convictions that the time had come for this action."

## FIVE YEARS' PENAL SERVITUDE.

A Sentence Pronounced Upon a Member of the British Parliament.

LONDON, March 12.—At the Old Bailey to-day, a sentence was passed that will, without doubt, result in another expulsion from the house of commons, making the third member of the present parliament who has been unceremoniously expelled. The first was Capt. Verney, who was expelled upon his conviction for procuring a girl for immoral purposes; the second who was Edward Decolay, who fled the country to escape arrest on a charge of gross immorality; the third will be George Woodgate Hastings; member for the Bromsgrove division of Worcestershire, who was to-day sentenced to five years' penal servitude on his plea of guilty on the charge of misappropriating \$30,000. Mr. Hastings is a liberal unionist and is 66 years old.

## Mercier Will Be Expelled.

MONTREAL, March 12.—Mr. Mercier is reported to have recovered his spirits and to be in much better health. His friends declare that the conservatives will not dare to carry out their threats of prosecution against him as such an act they claim would be regarded as persecution and would create indignation against the new government. La Presse and other leading conservative papers are calling for his arrest and trial. A prominent conservative said yesterday that the government will not be content with anything less than his expulsion, and that that will probably be the course adopted.

## BUSINESS REVIEW.

Bradstreet's Report in regard to Commercial Matters the Past Week.

NEW YORK, March 12.—Bradstreet's weekly Wall street review says: The market this week has been lacking in those exciting episodes which distinguished the previous one. The speculation has been narrow and professional to a degree while foreign participation was of the lightest possible character. At the same time it must be noted that the absence of further heavy selling from European sources is regarded as a favorable sign, while there is more reason to believe that the ease with which this market has absorbed the stocks which London sold after the beginning of the year is producing a beneficial change of sentiment abroad in regard to American securities. This may bear fruit hereafter and for the time being the exchange market was too narrow and unsteady to permit operations in solving the transfer of gold to Europe. This gave encouragement to the bulls and though

bearish demonstrations were not absent the market as a whole exhibited surprising firmness in view of the extraordinary fluctuations and manipulation to which it had been treated. Rumors of deals and combinations were spoken of, but did not find the favor which attended them in the preceding week. The chief factor in the proceedings was indeed somewhat unsettling in its influences.

At the beginning of the week the prospects pro and con of the payment by the St. Paul of a dividend on its common stock became the chief question upon which speculation turns. Up to the very announcement, late on Thursday afternoon, that it had been decided to postpone for the present the resumption of dividends the matter was involved in uncertainty. This, of course, interfered with the progress of bullish manipulation and the interests which were so busy on that side of the market apparently concluded to suspend operations until a more settled state of affairs was reached.

## Killed Two Mexican Laborers.

EL PASO, Tex., March 12.—A wreck occurred on the Southern Pacific railroad, at Strauss, ten miles west of this city, caused by a broken wheel on the water car. It was a work-train of fifteen cars. The entire train went into the ditch and with it the Mexican laborers, two of whom were so badly injured that they died two hours later and some fifteen others were so badly injured that they were sent to the hospital at Tucson. The locomotive kept the track.

## Sarah Althea Terry Insane.

SAN FRANCISCO, March 12.—Sarah Althea Terry was yesterday adjudged insane in Judge Levy's court and was committed to the state asylum at Stockton. During the examination Mrs. Terry questioned one of the witnesses and displayed at times considerable cleverness. When placed on the stand she talked incoherently. After court had adjourned Judge Levy signed the commitment and Mrs. Terry was taken away in a closed carriage.

## "Extract of Malt" Said to Be Beer.

LEHIGH, I. T., March 12.—Deputy marshals yesterday closed all the "joints" and arrested the proprietors for selling "Extract of Malt." This was done under instructions from Indian Agent Bennett. "Extract of Malt" is said to be beer; if so proven it will cause a large number of arrests, which will prove serious to joint keepers.

## WANT PEACE.

English Liberals Oppose Lord Salisbury's Policy.

## ONLY TORY ORGANS SUPPORT HIM.

The Two British Vessels Seized Last Year Have Started For Behring Sea, While the American Were Labeled and Condemned.

LONDON, March 12.—Lord Salisbury's delay in arranging for a renewal of the modus vivendi in the Behring sea matter has been a matter for private consideration by the leaders of the opposition, resulting in a decision not to move in the matter until the policy of the government appears more definite. The foreign office is unusually dilatory in the production of the papers in the case. Apart from the extreme tory organs, the opinion of the country is dead against Lord Salisbury for risking a quarrel with the United States for the sake of the small capital invested in fish boats.

Today's number of the Speaker indicates the attitude of the liberals in arguing that the reasons that induced Lord Salisbury to agree to the modus vivendi in 1891 apply with equal force in favor of a renewal in 1892; that if the English government is confident of the strength of its case there is all the greater cause to be content to await the decision of the arbitration tribunal and to be ready meanwhile to meet the Washington executive on a provisional arrangement.

## STARTED FOR BEHRING SEA.

WASHINGTON, March 12.—The two British vessels seized in Behring sea last year for violating the terms of the modus vivendi and turned over to the British authorities for prosecution under that agreement, are said to be among the vessels that have already started for the sealing grounds. These vessels are the Otto and E. F. Martin. So far as known the British government has not instituted proceedings against them. On the other hand the Laninmfa and Ethel, two American vessels seized for exactly the same offense, were libeled and condemned by the United States courts. The four vessels named were the only ones seized last year for illegal sealing, and there was considerable adverse comment in official circles yesterday in regard to the radically different action of the two governments in a matter upon which at the time they were supposed to be in full accord.

## MEETING OF THE CABINET.

WASHINGTON, March 12.—The Behring sea question was again considered at yesterday's meeting of the cabinet. In the absence of any reply from Lord Salisbury in regard to a renewal of the modus vivendi, it is understood no action was taken. Secretaries Blaine, Foster and Noble were the absentees. The session was shorter than usual and at its close a member said, in reply to an inquiry on the subject, that there was no new developments in the Behring sea matter.

## A BURGLAR SENTENCED.

Said to Have Been Associated With Hedspeith and Sly.

ALBANY, Mo., March 11.—In the circuit court of Gentry county Charles Montgomery, known to police officers and detectives throughout the United States as Charles St. John and by other aliases, pleaded guilty to burglary yesterday, receiving a sentence of four years in the penitentiary. Montgomery's picture is conspicuous in many rogues' galleries. It is not improbable that Montgomery helped to plan the Glendale train robbery, if he was not a participant, as he is positively known to have been associated with Hedspeith and Sly. He was an expert safe-breaker and post office robber, his success being promoted by his wife, who is said to have been the treasurer of the gang for several years. Her principal headquarters were at Chicago and Kansas City. Kan. Montgomery served two terms in the Illinois penitentiary for safe-cracking, one term in Kentucky and one in Missouri. Previous to his professional trip to Northwest Missouri he operated in Arkansas.

## AN INTERESTING SUIT ENDED.

Money Paid For Bank Stock, Which Afterwards Became Worthless, Recovered.

HASTINGS, Neb., March 12.—An important case was settled in the district court yesterday morning. About two years ago H. Bostwick, president of the City National bank, sold M. A. Hartigan, of this city, \$1,000 worth of bank stock at a premium. In less than a year after the City National bank closed its doors. Mr. Hartigan brought suit against Mr. Bostwick to recover the amount of his stock and interest. He set up a plea of fraud in his petition, and the jury brought in a verdict for the plaintiff in the sum of \$1,500, this being the full amount asked with interest. The case has been watched with considerable interest, and the outcome may lead to other suits of a similar nature being brought against Mr. Bostwick.

## MISSOURI LEGISLATURE.

The University Question Caused Considerable Debate in the House—The Senate in Session Thirty Minutes.

JEFFERSON CITY, Mo., March 12.—The senate was in session thirty minutes yesterday morning. House bill appropriating \$60,000 for mileage, per diem and expenses of the extra session was passed. Senate bill, rearranging the judicial circuits, was discussed briefly and made special order for next Tuesday afternoon. The senate then adjourned till Monday afternoon.

## THE HOUSE.

JEFFERSON CITY, March 12.—The house indulged in a long wrangle yesterday morning over a motion to reconsider the vote by which house bill fixing the terms of circuit court was ordered engrossed Thursday. The motion finally prevailed, and Mr. Farris, of Ray, moved to strike out the section making the calling of

a grand jury within the discretion of the county court and circuit judge. Mr. Farris attacked this provision in most vigorous language. He said it was dangerous and revolutionary legislation. After a brief skirmish the section was rejected. The Carthage and Joplin people then attempted to strike out the clause of the bill giving Webb City two terms of the circuit court, but were defeated by a decided vote.

The university fight opened with a motion from Mr. McLin to reconsider the adoption of the Fogel resolution calling for bids from towns desiring the university. He explained that the object sought could best be obtained through a bill now in progress of formation having in view a removal of the university from Columbia. Action under the resolution, he said, would be of no importance without the concurrence of the senate.

The supporters of Columbia, headed by Farris, of Ray; Lyman, Davidson and McIntyre made an attack on those who favor a removal. A motion to table the motion to reconsider was lost. Debate was then cut off with the previous question and a direct vote taken on the motion to reconsider, which was lost by a vote of 68 against 65.

At this point the special committee on university submitted a majority and a minority report. The former favors a separation of agricultural college and university and rebuilding of the latter at some other place than Columbia. The minority report favors a rebuilding at Columbia. The bids were returned by the committee without recommendation and the house adjourned till to-day with everything pending.

## STILL AT IT.

The Tariff Debate Was Continued in the House.

## RAY, OF NEW YORK, CHIEF SPEAKER.

A Tilt With Meredith, of Virginia—No Evening Session—Senator Dolph Spoke Against the Sub-Treasury Scheme.

WASHINGTON, March 12.—Among the bills introduced and referred to committees yesterday was one by Mr. Stewart proposing a constitutional amendment that (after 1891) no person who has held the office of president for a term of four years or any part thereof, shall be eligible to that office.

Mr. Stanford's bill to provide the government with means sufficient to supply the national want of a sound circulating medium was taken up and was made the text of a speech by Mr. Dolph.

Mr. Dolph's speech was in opposition to the sub-treasury scheme and reciprocity with Canada and in favor of protection as set forth in the McKinley act. He followed the line of argument adopted in his recent speech in Detroit.

At the close of Mr. Dolph's speech Mr. Cullom from the committee on appropriations reported back the military academy appropriation bill.

The post office buildings bill was then taken up; on motion of Mr. Vest the appropriation of \$500,000 was struck out, the object being to leave that question to the committee on appropriations. The bill was discussed at great length but no action was taken. The urgent deficiency bill was then taken up and passed and the senate adjourned till Monday.

## THE HOUSE.

WASHINGTON, March 12.—The tariff discussion in the house yesterday was more than usually interesting, and there were several lively passages which forcibly reminded one of the fierce political scenes of past congresses when this all-absorbing issue was to the front. The speeches yesterday on both sides of the house were well fortified and were listened to with a great deal of attention by the members. The somewhat unique spectacle of the largest individual woolen manufacturer in the United States arguing in favor of the free wool bill was presented when Mr. Stevens, of Massachusetts, a member of the ways and means committee, took the floor in support of the Springer bill, and the democrats paid close attention to his remarks and greeted his arguments with applause.

No less flattering was the attention paid by all the members of the house to the next speaker, Representative Montgomery, of Kentucky.

T. P. Brookshire, of Indiana, took occasion in the course of his remarks to denounce the so-called reciprocity scheme of the republican party as a delusion and a snare.

Representative Ray, of New York, the chief republican orator of the day, succeeded in provoking more than usual partisan strife and it looked for a time as though his altercation with Representative Meredith, of Virginia, might surpass parliamentary bounds.

In the course of Mr. Ray's speech, while he was citing certain figures in regard to the price of wool under the policy of protection and of low tariff, he was frequently interrupted with questions by Mr. Pendleton, of West Virginia, Mr. Simpson and others. Finally Mr. Ray stated that he was not a teacher in a democratic kindergarten and would not be further interrupted by gentlemen who could find all information wanted in the proper books. He further intimated that his interlocutors were sadly in need of information.

To this Mr. Meredith replied that although they might need information in regard to the tariff, they did know the courtesy that ought to obtain between gentlemen. [Sensation.]

Mr. Ray thought that he could show as much courtesy to members as those from West Virginia showed to him when he made a remark of that kind when he (

### A BRIGHT BOY.

A Man Who Moves to Arkansas Gives Up All Hope of Salvation.

The following shows that even the small boy of Sedalia knows something of the grand old state of Missouri. Eli Perkins, in talking

to a *Republic* reporter yesterday, said:

"Eli Perkins" (Melville D. Landon) passed through St. Louis en route for New York yesterday. When asked if he had seen any fun during his trip from Texas, he said:

"Well, yes. I met a little Missouri boy in the Sedalia depot yesterday. In conversation with him I asked him several questions. Looking him in the eye, I said inquiringly:

"Little boy, are you a good little boy?"

"Oh, you bet I am," he said proudly. "I'm the best boy in Missouri."

"Do you say your prayers every day?"

"Well, I used to," and then he added slowly, "but I didn't say 'em yesterday, and I haven't said 'em to-day—and, if I get along all right I ain't going to say 'em any more at all."

"Why not?" I asked.  
"Oh, paw and maw is goin' to live down in Arkansas."

### NOT THE RIGHT MAN.

The Smithton Robber Sought for East of Town.

A report was circulated in the city yesterday afternoon that the man who committed the outrage of robbing and setting fire to a house at Smithton was heading toward Sedalia and was in the vicinity of the "Nine Hole," a spot east of town on the Missouri Pacific where the wreck occurred during the strike.

A squad of officers at once went to the place where they found a very ordinary specimen of a very ordinary tramp. He was found not to be the man and was turned loose.

That is what they call the grocery store of Wm. Grow, on East Fifth street, who solicits the trade of his former fellow workmen, the railroad boys. He knows what it is. He rode the hurricane deck for years, and is still in it.

Remember the place, 624 East Fifth street.

### Substantial Reasons.

We have just added to our already fine line of pianos the "Steinway," and now reiterate our statement that we are the only house in Sedalia carrying first-class pianos and organs in stock. The Steinway is acknowledged to be the BEST in the world, as is also the Mason & Hamlin organ. We are the only house in Sedalia buying our goods, and it is a well known fact that there is from 20 to 30 per cent. difference between buying and consignment. Our experience in the wholesale trade has enabled us to secure bed-rock prices on all goods. If you want anything in the music line it will pay you to see us. Tuning and repairing a specialty. Pianos and organs for rent.

### University Removal.

Amity Lodge No. 69, A. O. U. W., donated \$50 at their meeting last night to assist the removal of the state university from Columbia to Sedalia. This will be doubled if necessary.

### Fighting Surveyors.

The surveying parties of the new roads proposed by the Missouri, Kansas and Texas and the Missouri Pacific are both on the ground at

Boonville and considerable rivalry is manifested between the local representatives of the two competing lines. Last night as a party of the Pacific men came home it was noticed they had black eyes and were otherwise disfigured. Their only explanation was that they had met a crowd of Missouri, Kansas and Texas surveyors.

### NOTHING DONE.

The House Discusses University Matters Without Definite Action.

JEFFERSON CITY, Mo., Mar. 12.—The house spent to-day in doing nothing. The university question was again under consideration and the forces for and against removal were again engaged in a wordy wrangle.

McLin, of Johnson, introduced a bill to appoint a commission to relocate the university.

This proposition was under discussion when the house adjourned. Eaton, of Washington, moved that the house proceed to ballot for a site for the institution, but his motion was not disposed of.

Next Monday will doubtless see some definite action on the question.

### To See a Bullet's Flight.

A late scientific authority states that by saturating a bullet with vaseline its flight may be easily followed with the eye from the time it leaves the muzzle of the rifle until it strikes the target. The course of

the flight is marked by a beautiful ring of smoke, caused by the vaseline being ignited on leaving the muzzle of the gun. This smoke ring will remain suspended in the air for some little time after the bullet strikes if the day is not too windy.
